SURVEY INVITATION: INCENTIVES TO PROMOTE ELECTROMOBILITY

EXCHANGE OF EXPERIENCE Platform

Dear Ladies and Gentlemen,

In an effort to develop a study of possibilities to incentivize electromobility, AustriaTech is conducting a survey with a selected group of best practice examples. Your input would help us to meet the goal of the study, getting a comprehensive overview of programs already existing and lessons learned.

AustriaTech is a federal agency which inter alia supports the Austrian Ministry of Transport, Innovation and Technology to put the federal implementation plan "*Electromobility in and from Austria*" into action.

Attached to this letter you find an AustriaTech company presentation and an Excel document which includes the questionnaire and further instructions. We'd highly appreciate to receive your response by Monday, September 2, 2013.

Your input is very important to us and will be kept confidential (used only for the purposes of research for this study). We can offer an executive summary of the survey analysis in case the questionnaire is returned. Further, we intend to establish a multilateral exchange of experience platform including all contributors to this survey and study. AustriaTech as national contact point (NCP) for electromobility will initialize this process in fall 2013 and would keep you informed in case you'd like to participate.

If you have any questions please do not hesitate to call or email me.

Thank you very much for your participation!

Sincerely,

Hans-Jürgen Salmhofer
Innovation & E-Mobility
