

# Introducing the EU project North Sea Region Electric Mobility Network (E-Mobility NSR)

Prof. Dr. (mult.) Dr. h.c. (mult.) Walter Leal, HAW Hamburg

Hamburg, 15 March 2012

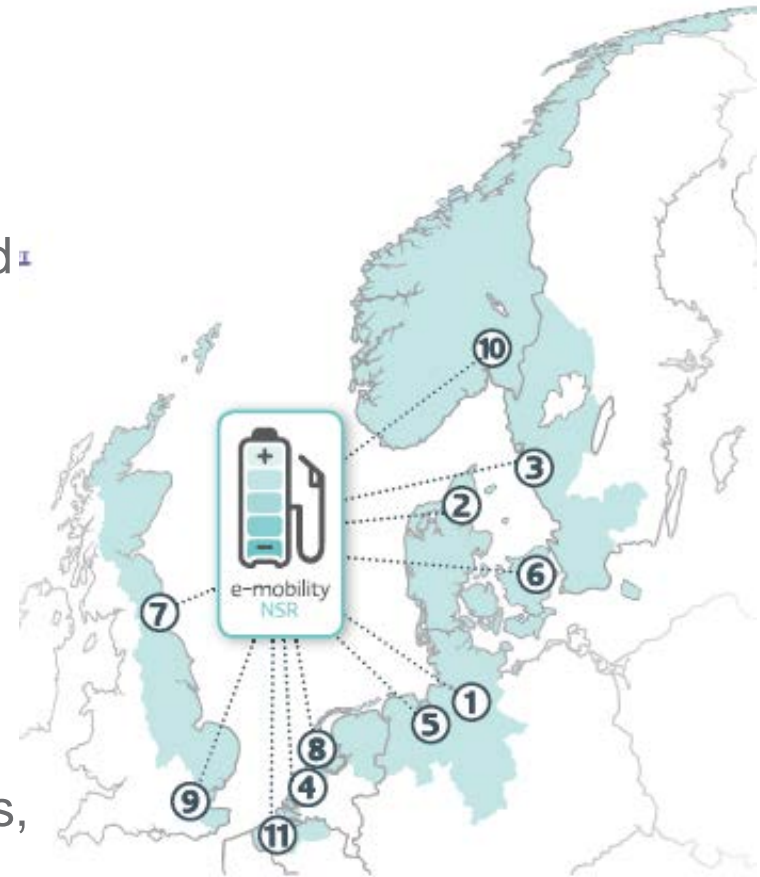

# The EU-Project E-Mobility NSR (1/2)

e-mobility NSR

## Project Aims:

1. To improve the access to e-mobility and facilitate the use of e-vehicles (passenger traffic and freight)
2. To arise awareness for the potential of e-mobility for the regional economical development and a strenghtened cooperation within the EU
3. To stimulate future investments in areas, which are beneficial for e-mobility

# The EU-Project E-Mobility NSR (2/2).

e-mobility NSR

Envisaged **results** of the project:

1. **State of the art information on policy developments** and current and future action needed to support e-mobility in the NSR.
2. **Identification of gaps and needs** in respect of infrastructure, logistics, and preliminary standards for multi charging techniques
3. **The development of a smart grid concept** with charging points, to contribute to an increasing accessibility in the region with e-mobility.
4. **The development of a virtual e-route** across the NSR and **set-up of information centres**, to inform and raise awareness about e-mobility.
5. **The integration of an urban freight logistics dimension** into the e-mobility network promoting better accessibility and cleaner cities.
