

# TSCHERNING

## E-Mobility in the North Sea Region

Why do we find EVs interesting – and why have we not yet included them in our fleet?

[www.tscherning.dk](http://www.tscherning.dk)

## Certifications

## What we look like

10424 - Købmagergade

TSCHERNING

## What we do

## Our employees

- Administration 26
- Workshop 5
- Workers 159
- Employees – total 190

## Our fleet

- Excavators 70
- Minivans 38
- Vans 42
- Pickup trucks 11
- Cars 22
- Trucks 4
- Total vehicles 117

## Fuel consumption

- Cars approx 300.000 liters per year
- Excavators approx 300.000 liters per year

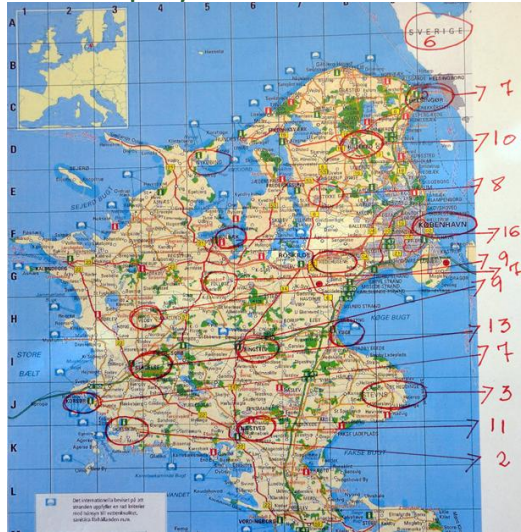

## Why do we find EVs interesting

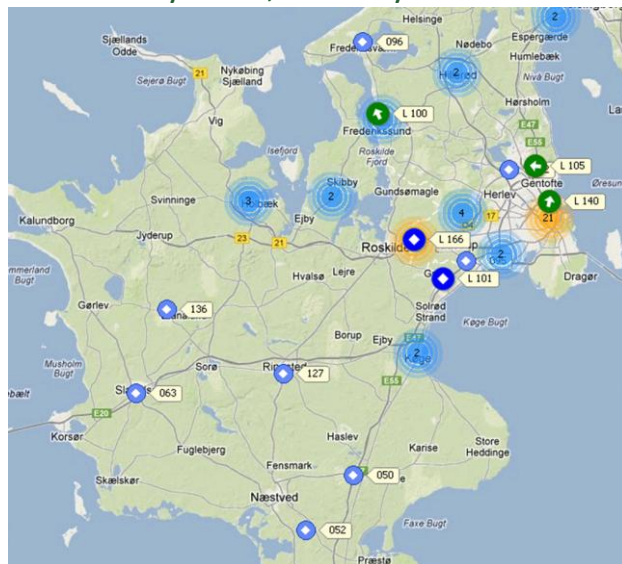

- We have a green profile
- We want to minimize our footprint and our CO2 emission

### Where do our employees live?

### And where do they work, Tuesday at noon?

And why have we not yet included them in our fleet?

- We need a longer range + 300 km, so our people can drive from home to work and back

- Resale value

- We will probably have a few within a year
